# FLIWAY

## Governance Policy – Delegated Authority

November 2015

#### Introduction

- > The Board of Fliway ("Fliway" or the "Company") has the statutory responsibility for managing the business and affairs of the company which is, in part, delegated to the Managing Director ("MD").
- The Board has agreed that the MD may sub-delegate to other levels of management certain rights to make Operational and Financial decisions, the limits of which are described in the Delegation of Authority Framework and other Policies of the MD.

#### **Governance Policy Statement**

- The Board of Directors of Fliway is the overall and final body of responsibility for all decision-making and implementation within Fliway, including all its subsidiaries and divisions.
- In pursuit of efficiency the Fliway Board has chosen to decentralise much of its authority and responsibility to the MD who is charged with the day to day leadership and management of the company.
- The Fliway Board has agreed that the MD may in turn delegate to other levels of management certain rights to make operational and financial decisions within certain limits.
- With the delegation of authority there is a delegation of responsibility and accountability. When a Fliway employee makes a decision under a delegated authority, the employee must do so first with regard to the responsibilities of the Directors to comply with the law, and, secondly, strive for excellence and operate with integrity.

#### **Governance Structure**

The Fliway Board has formally delegated authority and responsibility to the MD and Board Committees, if and when they are established. In turn the MD has formally delegated certain authorities to his/her direct reports, and has established a process for his/her direct reports to sub-delegate certain authorities. In general, collective bodies will be replaced by individual management accountabilities.

#### **Specific Responsibilities**

- Fliway Board of Directors The Board is the overall and final body of responsibility for all decision-making and implementation within the Fliway Group.
- Board Committees The Board has formally delegated certain powers and duties to Board Committees. The Audit and Risk Management Committee is responsible for overseeing financial, accounting and risk management processes.
- Subsidiary Boards Fliway's business will only be limited liability companies if there is an overriding legal, strategic or ownership reason. The management responsibilities of subsidiary boards will largely become part of individual managers' accountabilities for the outcomes of that subsidiary, business unit or group. Subsidiary boards and directors must, however, still comply with the formal duties and requirements under the Companies Act and the Company's Constitution.
- Managing Director— The Board has formally delegated authority and responsibility to the MD to conduct the day-to-day affairs of the Fliway Group, and to recommend to the Board changes to the business, performance goals and policy. Restrictions are placed on the powers to engage, discharge or vary the employment conditions of direct reports, expenditure and subdelegation, guarantees and securities, financial exposures, capital changes and litigation.
- Executive Team The Executive Team operates as an advisory group to the MD on matters including strategy, policy, investment and corporate activities for which the MD has ultimate responsibility.
- Management The MD has in turn formally delegated certain financial authorities to his/her direct reports, relating to operating and capital expenditure and sub-delegation, equity investments, new products and services, tariff changes and discounts, foregone revenue, treasury operations, disposal and write-off of assets, contractual commitments, and litigation.
- The Chief Financial Officer (CFO) manages the Company's compliance with Board Policy and the Companies Act. The DA framework is administered by the CFO.

#### **Delegation to the MD**

The Fliway Board has a statutory responsibility for managing the business and affairs of the company, which, in large part, in pursuit of efficiency is achieved through delegation to the MD and others (including subsidiary company boards) who are charged with the day-to-day leadership and management of the Company.

#### The general principle of delegation of authority ("DA") to the MD is to:

- Conduct the day to day affairs of Fliway in accordance with the law in order to achieve goals set by the Fliway Board in the annual Business Plan and longer term financial forecasts, and in conformity with approved policies and decisions of the Fliway Board; and
- > Recommend to the Fliway Board desirable changes in the business of the Company, performance, goals or policies.

The DA framework is designed to satisfy requirements that ensure that shareholders' value is maximised with out compromising financial discipline and risk and maximum efficiency and effectiveness while maintaining an appropriate level of accountability.

The framework comprises 3 sections:

- DA Framework This section provides a description of the framework. The Framework applies to all business activities with financial and non-financial consequences, and to all employees and contractors who enter into a commitment or accept risk which may or will have a financial impact on Fliway.
- DA Rules These are the mandatory rules under which DA is granted.
- DA Limits These are the limits that can be assigned to each DA holder.

#### **Exercising DA**

- DA is exercised at the point where an employee enters into a commitment or accepts a risk which has an actual or potential financial impact for Fliway. When an employee exercises DA, they must do so:
  - With regard to the responsibilities of those with ultimate accountability, i.e. those who initiated the delegation of authority;
  - Whilst striving for excellence and operating with integrity;
  - With regard to the other policies of the MD that may be relevant to the activity, commitment or transaction;
  - Appreciating that a breach of DA may result in dismissal (which may be summary or on notice depending on severity).

#### **DA Violations**

If you become aware of a breach of the Fliway delegated authority framework, you are responsible for reporting it to your manager, the CFO or the Board, as appropriate. If this is not appropriate in the circumstances, you should report the breach to the:

- Chairman of the Board; or
- Chairperson of the Audit and Risk Management Committee.

Fliway will stand behind any employee who, acting in good faith, reports a breach, serious problem or wrongdoing. The identity of the person making the report will be kept confidential where possible – there may be situations however where the proper investigation of the matter inadvertently identifies the reporter or requires his or her identification.

Fliway requires all directors, senior executives and other employees who receive a report of an actual or suspected violation of this delegated authority framework to take all reasonable steps within their control to ensure that:

- the behaviour alleged in the report is thoroughly investigated;
- the rules of natural justice are observed in that investigation; and
- appropriate disciplinary action is taken if the allegation is substantiated.

Any person who knowingly makes a false report of a legal or policy breach may be subject to disciplinary action. If you suspect that a breach of the delegated authority rules or limits has occurred you should advise your manager and the delegated authority holder whose responsibility it should have been to approve the transaction, as soon as possible.

Violations include:

- Entering into a commitment which breaches the DA's Rules
- Entering into a commitment which exceeds one's DA Limit
- Manipulating a commitment such that it appears to be within one's DA Limit, e.g. splitting a transaction which really constitutes a single commitment.
- Exposing Fliway to a risk in excess of one's DA Limit.

## DELEGATED AUTHORITY FRAMEWORK – DA LIMITS (1/3)

Set out below are the limits that are assigned to each DA Holder. In addition to this the MD is granted, and the MD can grant other employees special DA to approve specifically identified high value transactions which include motor vehicle R&M, taxation, ACC and interest payments.
